

WINDOWS

We only use the industry leading REHAU profiles to manufacture all of our systems. The systems offer exceptional quality in terms of both appearance and performance.

The REHAU system is extruded from RAU-PVC 1406 (unplasticised, modified polyvinyl chlorides) which is vigorously tested to temperatures as low as -40° and up to +60° without losing any quality or durability.

The REHAU profile offers much more than just exceptional performance but superb aesthetics. The smooth sight lines and perfectly cut angles give the

profile a beautiful and professional finished touch.

With our extensive range of colours, styles, hardware options, locks & gearing you can guarantee that not only will you get a product that can suit every home but is extremely durable and will last for years to come making our PVCu products a cut above the rest!

9 POINT LOCKING

With an ever increasing crime rate it has never been so important to have that extra bit of security for your home. That is why all our windows have 9 locking mechanisms making it the safest and most secure window on the market today.

With: 4 x Espagnolette Locks, 2 x Shootbolts, 2 x High Security Friction Hinges and an extra Security Clip - you really will not find a better window system than ours!

- Inboard eurogroove provides greater security.
- All lock gearing is contained inside the profile isolated from any moisture.
- Larger reinforcement chamber providing a very strong robust system.
- Chamber profile with unique drainage system giving excellent thermal performance.

PVCu DOORS

With so many beautiful panels and glazing designs to choose from you will be spoilt for choice.

By utilising the best materials and exceptionally high standards of production, our stunning collection of decorative glazed door panels are the perfect choice for any home.

Our PVCu doors are manufactured using the very latest techniques of two-skin bonding to a variety of high quality core materials which increases integrity against heat and moisture.

The type A Expanded Polystyrene we use on all doors is totally recyclable, non toxic and inert. It contains no CFC's or HFC's and contains a fire retardant additive, formulated to restrict the extent of burn giving it improved performance against fire risks.

YALE LOCKING SYSTEM

As one of the oldest international brands Yale is among the best known and most respected names in the lock industry. With their high security products, and a commitment to product development it is no wonder that there are millions of customers worldwide securing their homes and businesses with a Yale lock.

PATIO DOORS

Our patio doors are not just any patio door, with their sleek lines and stunning finishes they can enhance and compliment any home.

With excellent thermal properties and increased security it makes it the best patio door on the market today.

FRENCH DOORS

Bring the outside inside, with our large opening french doors. The large glazed openings combined with side screen options really bring the outdoors inside, allowing more light to fill your home.

Our french doors conform the very latest in security standards and are available in all the custom foiled coloured options, so not only can you have PAS 23/24 locking and police approved security but you can choose the perfect colour and design to suit your home.

COMPOSITE DOORS

We believe that durability and security are paramount in today's market place but also that style and choice shouldn't be limited to meet these requirements.

All of our composite doors come with the most advanced locking systems as standard and combined with its solid laminated veneer lumber core makes it the strongest and safest composite door on the market today.

The highly robust core materials provide exceptional thermal and sound insulation properties whilst creating the perfect barrier to keep all the warmth from your home in and all the loud noises from the street out.

The door is also protected with a blended polycarbonate skin which has a high impact strength, of which similar blends are used in the manufacture of police helmet visors and even riot shields!

COMPOSITE DOORS - Are available in these realistic grained GRP skins with extra options of having a colour on the one side and white the other or the same colour both sides.

The Highest PVCu & Composite Security

All of our doors have gone through extreme vigorous testing to ensure that not only can they withstand harsh weather conditions but can protect against various physical invasion methods caused by attempts of burglary.

The door, frame, locking mechanisms and various other security components have gone through extreme testing of simulated break-ins to ensure that you and your family are significantly more safe and secure in your home.

BI-FOLDING DOORS

With great appearance and outstanding quality our bi-folding doors gives your home a modern and sophisticated door system full of excellent benefits. Perfect for opening your home to the garden, allowing light to fill your room making it a much more versatile living experience.

Our bi-folding doors boast superior engineering, utilising REHAU profiles and Yale locking systems, making it the perfect option for your home.

The panels can be connected in a number of configurations so that the doors can be bi-fold or Multi-fold allowing greater flexibility. This is ideal for connecting any rooms in the house, or the house to the garden outside, where they provide additional natural light to the room. The door operates smoothly and is remarkable easy to open.

BI-FOLD FEATURES

Surface Finish

Sun are renowned for quality, our bi-fold doors maintain a lasting gloss finish and benefit from reduced maintenance.

3 Chamber Profiles

All of the REHAU profiles we use have a three chamber design for improved thermal performance and efficiency.

Easy Glazing

The proven single leg glazing we use ensures on-site glazing is quick, easy and secure once fitted.

Fully Assessed

The 70mm system we use comes fully assessed by BSI and BBA.

10 YEAR GAURANTEE

Why Choose a Bi-Fold Door from us?

The bi-fold door system is manufactured using the REHAU Total70 profile. As with all our products the specification and ease of installation are result of years of quality engineering and research, placing our products firmly at the forefront of the market place.

ENERGY EFFICIENT GLASS

A staggering 26% of all domestic heat loss escapes through the windows. By utilising the very latest in glass technology you could save a staggering 28% on your heating bills each and every year!

Our advanced coating technology reflects radiated heat back into the room, rather than allowing it to escape through the windows. At the same time it allows free heat and light from the sun to pass through the glass.

The result? Lighter, brighter, warmer and more energy efficient homes thanks to the advanced thermal insulation.

The new range is 3 times more efficient than single glazed units and at least 25% more efficient than most currently installed double glazing!
